NOTE

Sub: Payment to Relievers in End Semester/ End Year Examination

The University engages the services of teachers as relievers during the End Semester/ End Year Examination. The relievers have to substitute for Junior Supervisors in the examination blocks at times of need. They will have to be present in the examination premises throughout the duration of the examination as the supervisors do. At present, they are not paid any remuneration for their services. It is submitted that the relievers also must be monetarily compensated for their services during the examination. Hence, it is proposed to pay remuneration to the relievers at the same rates as are being paid to the junior supervisors. This may be implemented from the current end semester examination.
