REVIEW

Month of the may was all about summer vacation. Every year students have given this break so that they can relax a bit from their tough routine and it was not just the break but the whole country took a breath of relief as the cases of covid started decreasing. The constant stress and burden that people were facing due to the second wave of covid has now been relived.

Though, some areas of country are still facing partial or complete lockdown but this decrease in the number of the cases has given a chance to the front liners to relax for some time. With the constant efforts of the front liners, day and night sacrifice of medical and paramedical staff and the discipline of the people, situation has started improvising tremendously and now we can hope that by the more vaccination, strict discipline regarding precautionary measures and with the blessings of almighty, we will soon shift from our new normal to old normal.

Homoeopathic faculty has always given more importance to the work and duty than anything else and we taught the

same to our students. This vacation time was an example of our morals and teaching. Homoeopathic faculty is very proud to share that instead of enjoying the summer vacation and the comfort of home, many of our students were doing volunteer covid duties at different hospitals and vaccination centres to serve the needy. Not just students but teachers were also on the working mood. Lot many events and activities were done in the month of may. On one end, where live sessions were conducted on menstrual hygiene and oath were taken on “world no tobacco day”, different activities, seminars, webinars, educational field visit and expert talks were conducted on the other hand.

We are doing our best efforts to impart good quality education to our students. They say that “once you choose hope, anything is possible” and we surely believe that with our constant efforts, we all will be able to survive this tough time, with the hope of bright future.

BE HERE, BE VIBRANT

COVID VOLUNTEER'S

Though the month of may was all about summer vacation and students were suppose to enjoy it at the comfort of home. Homoeopathic faculty is very proud to share that our students were doing volunteer duty at different covid hospitals and vaccination centres. They were working day and night to impart good quality medical facilities to all.

With this homoeopathic faculty has also started the facility of teleconsultation and counselling for covid and post covid patients. Homoeopathic medicine can also be prescribed on phone call, if needed.

AHMEDABAD HOMOEOPATHIC MEDICAL COLLEGE

We @Paruluniversity, understand the pain which one is going through. We are happy to announce that we are starting Free **TELECONSULTATION & COUNSELING** for Covid & Post Covid patients. If needed, Homoeopathic medicines will be given.

APPRECIATION

Hackathon is action wide initiative to provide students a platform to solve some of the pressing problems faced by industries, government and other private sectors.

Faculty of homoeopathy, JNHMC had also conducted a session in hackathon, where six teams of students participated and discussed different problems and their tentative solutions.

Homoeopathic faculty has participated in the sessions as jury members and shared their valuable experience and knowledge with the audience. Their valuable efforts have being appreciated by Parul university by presenting them certificate of appreciation.
