

Faculty of Homoeopathy Jawaharlal Nehru Homoeopathic Medical College

CIRCULAR

25.9.2024

This is to inform all postgraduate students, faculty members, and academicians that Jawaharlal Nehru Homoeopathic Medical College has organized a Pre-Seminar Workshop of AIPGHS-2024 on the topic “Meta-analysis in Homoeopathy.” The workshop will be conducted on 15 November 2024, from 9:00 A.M. onwards, at the PPI Seminar Hall. Esteemed speakers for the event include Dr. Indranil Saha and Dr. Avinash Kumar.

Please note this and ensure your participation. This workshop aims to enhance academic knowledge and research skills in Homoeopathy.

Schedule & Speakers

Date: 15-11-2024		Venue: PPI Seminar Hall
Session-1		
Time	Topics	Speaker/s
9:00AM-9:30 AM	Breakfast & Registration	
9:30AM-11:20 AM	Basic concepts of systematic review and Meta-analysis., Screening studies, Data extraction	Dr Indranil Saha
11:20AM-11:30AM	Tea break (10 minutes)	
11:30AM-1:30PM	Concept of literature and search strategies for different databases, Hands on: exercise of literature search in different databases	Dr Indranil Saha
1:30PM-2:00PM	Lunch break	
Session-2		
02:00PM-4.00PM	Difference between systematic review and other types of reviews Protocol for SR, Hands on: formulating research question for review	Dr Avinash Kumar
4.00-4.10PM	Tea break (10 minutes)	
4.10PM-6.00PM	Risk of bias assessment, Concept of meta-analysis and ES, Softwares for systematic review meta-analysis	Dr Avinash Kumar
6:00PM	Evening snacks	

Faculty of Homoeopathy Jawaharlal Nehru Homoeopathic Medical College

Objective:

- To provide a clear understanding of meta-analysis as a research tool in Homoeopathy.
- To enable participants to synthesize data from multiple studies for evidence-based conclusions.
- To advance clinical practices and research outcomes through systematic data analysis.

Key Points:

1. Importance of meta-analysis in Homoeopathy research.
2. Methods for conducting systematic reviews and selecting relevant studies.
3. Statistical techniques such as data pooling and effect size estimation.
4. Addressing challenges like heterogeneity and research bias in Homoeopathy studies.
5. Practical applications through case studies and successful examples.
