On 19th January 2019, Faculty members along with the PG students of Jawaharlal Nehru Homeopathic Medical College have participated in one day national level seminar on recent trends in research & Development.

This seminar was organised by Centre for research & development, Parul University in association with Microbiologist society of India. The seminar started with brief introduction & felicitation of speakers. The speakers were introduced by Dr. Vijay Upadhyay (Deputy Director, Research & Development cell Parul University) and felicitated by Dr. S. F. Xavier (Director, Research & Development cell Parul University)

The seminar was divided into four sessions.

First session:

The speaker for first session was Dr. Arvind Deshmukh (President, Microbiologist Society of India) he has discussed about importance of research and different funding agencies for research. He has also discussed about differences between seminar and conference as well as various documents required for sending the research proposal.

Second session:

The speaker for second session was Dr. R S Awasthi (Principal, Shivaji Mahavidyalaya, renapur, Latur) he has discussed about recent trends in research analysis in biotechnology. He has also discussed in detail about the research process as well as status of higher education system in India.

Third session:

The speaker for Third session was Dr. Prashant Wakte (HOD Microbiology Dept. DSM College, Parbhani) he has discussed about Importance of use of computer applications in life sciences. He has also discussed about “Essence of research in prediction.”

Fourth session:

The speaker for Fourth session was Dr. Vija Upadhyay (Deputy Director, Research & development cell Parul University) he has summarised the three sessions for the students and discussed about how to write research proposals.

By the end of the session Dr. Geetika Patel (Medical Director, Parul University) gave vote of thanks and felicitated the guests with a memento.
