Objectives:

- To understand biostatistical considerations involved in designing a research study
- To gain knowledge about parametric and non-parametric statistical tests

Activity Details:

This webinar was organized by the Central Council for Research in Homoeopathy (CCRH), Ministry of AYUSH, Government of India, under the institutional Memorandum of Understanding (MoU) with Jawaharlal Nehru Homoeopathic Medical College, Parul University, under the initiative “Linking Research with Education”, and the banner: RISE – Research Interactions for Student Enrichment, Enhancement and Encouragement, a webinar series by CCRH. The webinar was conducted on Tuesday, 30th June 2025, from 2:00 pm to 4:00 pm, through the Microsoft Teams platform. The lecture was delivered by: Dr.Baidurjya Bhattacharjee

Outcome / Feedback

The webinar successfully enhanced understanding of biostatistics and data analysis among faculty members, PG students, interns, and UG students. Participants found the session informative and practically relevant, particularly in clarifying the selection and application of parametric and non-parametric tests in research studies.

The session reinforced the importance of statistical reasoning in research design, contributing significantly to the integration of research methodology with academic learning in Homoeopathy.

Objectives

- To understand bio statistical considerations involved in designing a research study
- To learn concepts of measures of central tendency, dispersion, variability, and precision

Activity Details

This webinar was organized by the Central Council for Research in Homoeopathy (CCRH), Ministry of AYUSH, Government of India, under the institutional Memorandum of Understanding (MoU) with Jawaharlal Nehru Homoeopathic Medical College, Parul University, under the initiative “Linking Research with Education” and the banner: RISE – Research Interactions for Student Enrichment, Enhancement and Encouragement, a webinar series by CCRH. The webinar was conducted on **Tuesday, 15th July 2025**, from **2:00 pm to 4:00 pm**, through the **Microsoft Teams platform**. The lecture was delivered by: **Dr. Baidurjya Bhattacharjee**

Outcome / Feedback

The webinar effectively enhanced participants' understanding of core biostatistical concepts essential for research design. Faculty members, PG students, interns, and UG students found the session highly informative and conceptually clear, particularly in relation to data distribution and hypothesis testing.

STREAMING PLATFORM	ONLINE		
EXPERT CONTACT DETAILS	Dr Amit Srivastava		
FACULTY COORDINATOR	Dr Zankhana Desai , Dr Shweta Awati		

Objectives:

- To understand biostatistical considerations involved in designing a research study
- To gain knowledge about parametric and non-parametric statistical tests

Activity Details:

This webinar was organized by the Central Council for Research in Homoeopathy (CCRH), Ministry of AYUSH, Government of India, under the institutional Memorandum of Understanding (MoU) with Jawaharlal Nehru Homoeopathic Medical College, Parul University, under the initiative “Linking Research with Education”, and the banner: RISE – Research Interactions for Student Enrichment, Enhancement and Encouragement, a webinar series by CCRH. The webinar was conducted on Tuesday, 12th August 2025, from 2:00 pm to 4:00 pm, through the Microsoft Teams platform. The lecture was delivered by: Dr. Amit Srivastava

Outcome / Feedback

The webinar successfully enhanced understanding of biostatistics and data analysis among faculty members, PG students, interns, and UG students. Participants found the session informative and practically relevant, particularly in clarifying the selection and application of parametric and non-parametric tests in research studies.

The session reinforced the importance of statistical reasoning in research design, contributing significantly to the integration of research methodology with academic learning in Homoeopathy.

Objectives

- To understand the concept and significance of sampling in health research.
- To familiarize participants with different types of sampling techniques used in research studies.

Activity Details:

This webinar was organized by the Central Council for Research in Homoeopathy (CCRH), Ministry of AYUSH, Government of India, under the institutional Memorandum of Understanding (MoU) with Jawaharlal Nehru Homoeopathic Medical College, Parul University, under the initiative “Linking Research with Education” and the banner: RISE – Research Interactions for Student Enrichment, Enhancement and Encouragement, a webinar series by CCRH. The webinar was conducted on Monday, 23rd December 2025, from 2:00 pm to 4:00 pm, through the Microsoft Teams platform. The lecture was delivered by: DrAnurag Bajapi

The programme was conducted for faculty members, postgraduate scholars, interns, and undergraduate students, with a total of 152 participants actively attending and benefiting from the session.

Outcome / Feedback

The webinar successfully enhanced the understanding of sampling concepts and their critical role in health and homoeopathic research among faculty members, postgraduate scholars, interns, and undergraduate students. Participants gained clarity on various sampling techniques, their appropriate application in different research designs, and the importance of representative samples for ensuring validity and reliability of research outcomes.
