

National Seminar on Homoeopathy

With the intention to spread the knowledge of homoeopathy and updating the knowledge of BHMS students, the internee doctors and the young practitioners of Homoeopathy, on 14th December 2014, the national seminar on Homoeopathy was organized at Jawaharlal Nehru Homoeopathic Medical College, Parul Campus Vadodara.

In order to become a truly great teacher, one must go beyond the textbook and attend workshops and ongoing education courses to truly master the practice. Good teachers become great teachers by going beyond the call of duty and beyond the textbook. To do this, he or she must continue their education. There are conferences, workshops, and continuing education that could give the teacher that extra help in teaching qualities.

Workshop on New Syllabus of 1st Year BHMS

The College has organized a Teacher's Work Shop on "New Syllabus of First Year BHMS applicable, amended by Central Council of Homoeopathy, New Delhi".

The Expert Lectures are motivational and they help the teachers and students in developing self confidence as well as help in true applications of their knowledge. The College is regularly arranging the Expert Lectures in the form of CMEs by calling renowned experts in the medical super specialties, viz Dr. Bharat Ramchandani (The renowned Vitrio-retinal Surgeon), Dr. S. K. Bhattacharyya (the renowned Homoeopath of India), Dr. Hardik Shah (the Pulmonologist), Dr. Parul Vadia (the Sr. Paediatrician of Vadodara), Dr. Rumin Shah (the Sr. Physician of Vadodara), Dr. Vivek Agraval and Anand Joshi (the Sr. Orthopedic Surgeons of Vadodara).

The Seminar provides real learning values. They allow organizations to get updated with the latest developments in the field. They are very appropriate in an era in which people do not have time to read a number of books by experts. They can spend a reasonably short period of time and get substantial

information on a topic they have an interest in. The speakers, who specialize in these fields, have already done the sifting and selection of information from a wide variety of sources. They then present the delegates with those aspects that are particularly relevant. The learning environment encourages delegates to exchange experiences, ideas and practices.
