Report on WOMEN'S DAY

The sun doesn't ask for permission to shine and neither does women.

This 8th march, Women's day , We got an amazing opportunity to raise our voice on behalf of every single women to reach out to the world. We are thankful to our principal Dr. Hitarth Mehta sir and to Dr. Vaidehi Bhatt mam, Dr. Humani Sharma mam and Dr.Prarthna Shastri mam. And also our coordinator Dr.Nirav Ganatra, PG scholar ,department of oraganon of medicine.

Our experience has been a great deal. As we made the video, it was not just the words or our voice but it was the feeling that unites us with the feminism. Our good wishes were not just limited to other women but also a reminder to ourself about the greatness within us.

Voices of all women in a single video spreads a powerful aura all around the internet. Had fantastic experience and Looking forward for more opportunities like this.
