AYURVED MEDICINE KIT DISTRIBUTION REPORT

Date : 23rd & 24th april 2021

Location : On the footpath near makarpuragidc

NSS-PIA Submitted by :Dr.HemangJoshi , NSS , Parul University

As we all know , these are the times of Covid-19 – one of the most awful pandemics ever happened to mankind. It has become a global issue since the last 1 YEAR , and is still on the rise in India as well as in the world. The untimely deaths , the unwanted recession , the unplanned unemployment and the messed up lives of everyone – these all are some of the biggest nightmares of mankind which have come true. Among these , the one which we all fear the most is the unavailability of work and money. Which inturn leads to issues with running your homes and feeding your family. Even the most well established businesses have collapsed And the happiest and the most satisfied families have come under worry and tension.... In times like these , how many have ever thought about the people living in slums , people surviving on daily wages , people dwelling on the roadsides , people with a family of six but money and food only for two? Hence I ,hemang Joshi , with the help of our parul institute of ayurved principal decided to help the needy out there. I thought of the simplest ,yet the most productive service that I could do. Instead of presenting them with money , I decided to distribute the ayurvedic medicine kits for 15 days along with Divyaroshni street school ngo to each of the families. Total 150 medicine kits distributed .can you imagine the pressure that they have to bear , and the sacrifices that they have make? This simple gesture made them smile. One of the male member of the family , who had the responsibility of the family , said “ Aabhaar “ , which in English means “Thank you so much”.
