

AMUL DAIRY VISIT

As per the part of CCIM curriculum, we 2 staff members & 74 students of the institution visited Amul dairy, Anand on 08/07/2016.

We have seen some departments like storage, packing, making of butter, making of milk powder etc. We also visited the museum of Amul dairy. The plant staff showed us all the instruments and manufacturing unit with due details which will definitely helpful in our academic knowledge. It was memorable and knowledge delivering tour for all of us.
