

Forensic science Laboratory and Snake Park Visit Report

Forensic science laboratory & Snake park visit are the two important topics in practical training of Agadatantra Vyavahara Ayurveda Avum Vidhivaidyak subject.

Hence regarding FSL visit for overview of functions & structure of FSL, Parul Institute of Ayurveda requested Honourable Director, Forensic science laboratory, Ahmedabad. Honourable Director accepted our request & allowed total 85 students of second year & 3 staff to visit FSL on 18th April 2017. Use of Mobile phones & cameras were strictly prohibited in FSL premises for all the students & faculties for the visit.

On the day of visit at 8 am we left Parul University campus and reached FSL Ahmedabad at 11.30 am. Initially permission was taken from Mrs.C.C.Rao Deputy Director in-charge, FSL & madam arranged 20 minutes speech regarding the functions of FSL and explained each department briefly in Seminar hall and total students were divided into three batches to visit. Visit was scheduled from 12 to 1.30pm.

On the day, Deputy Director guided students regarding following points:

1. Structure of FSL
2. Importance of FSL
3. Sections of FSL
4. Biological Section – Body fluid & serology section how to identify in given sample.
5. Physical Section – Photography, Ballistics, Handwriting & documentary sections
6. Chemistry section—Toxicology, Analytical Technique (Chromatography, Gas chromatography. TLC, HPTLC etc.)

At 1.45 pm we thanked Mrs. C.C Rao for permitting us and submitted thanking letter.
