Sub: - Submitting the visit report of Baroda dairy, Makarpura

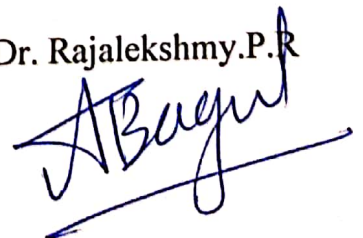

Respected Sir,

As a part of CCIM curriculum, the students of third year visited the Baroda dairy located at Makarpura, Vadodara on 19/12/2019 morning. The group included 100 students and two faculties from Swasthavritta Department also joined them during the visit. Mr. Dave, Staff of the dairy helped throughout and gave us all the information regarding the various processes done in the dairy. The students got a chance to see the pasteurization plant and they explained the various processes taking place also. It was really a nice experience to see all the processes of dairy products, manufacturing, packaging and marketing of the products. Mr. Dave also explained about the different types of storage methods, temperature maintenance of milk and also milk products such as ice creams, shrikhand etc. The preparation of curd, butter milk, butter etc and their packaging were also detailed. The students also visited cold storage rooms and QA-QC department. They learnt about the various instruments & milk test like turbidity tests, coliform test and also the tests for adulteration too. The visit will definitely help in increasing our academic knowledge. It was a memorable and informative academic tour for all of us.

Thank you for granting us permission for the same.

Yours faithfully,

Dr. Rajalekshmy.P.R
