Skill knowledge Provider : Parul Sevashram Hospital

Parul Sevashram Hospital is a 450 bedded multi speciality hospital with a special Neuroscience Department offering advanced diagnostic and therapeutic facilities in all medical & surgical departments.

The very experienced and senior doctors of the hospital take active part in practical as well as theoretical learning of students enrolled in all the courses.

The modern infrastructure of all the departments in the Hospital provides a strong platform for clinical learning to the students.

All the courses are skill based and practical oriented. Students are given hands on experience in the respective clinical areas in Parul Sevashram Hospital.

Summer Internships

As part of the Program, the students undertake full-time Summer internships at any well-known or recognized institution/hospital with state of the art infrastructure facilities in the Healthcare Sector. Internship provides them an opportunity to gain real-life on job-scenario experiences.

Clinical - Academia Interface

Over and above the routine clinical exposure in parent hospital, Frequent visits to different accredited hospitals, Laboratories, Blood Banks etc. for widened vision.

Hostel facility for 10,000+ Students

- Fitness Centre & Swimming pool · Banking Facilities
- Mess & canteen

NSQF Aligned Course Structure

The program structure for B.Sc. and Diploma courses is aligned to the NSQF (National Skills Qualifications Framework), which in India was notified under the Ministry of HRD on December, 2013. NSQF is a competency-based framework that organizes all qualifications according to a series of levels of knowledge, skills and aptitude. The NSQF is a quality assurance framework. Presently, more than 100 countries have, or are in the process of developing national qualification frameworks.

Clinical Postings

The student in the final year of the course will undergo clinical posting in their specialization department for the entire year. In this year, they will also study 2 specialization papers offered in their respective departments. By the end of clinical posting, it is expected that the student will be able to function in their specialization department with minimum supervision.
