

## **A REPORT ON VISIT TO MAPS GRANITO PVT. LTD.**

At Morbi , Gujarat  
On 09/04/2024.  
PRINCIPAL  
RAJKOT HOMOEOPATHIC MEDICAL COLLEGE  
RAJKOT.

**ORGANISED BY:**

10/04/24  
HOD  
Department of  
Community Medicine

### **DEPARTMENT OF COMMUNITY MEDICINE**

#### **GUIDED BY :**

**DR. ANUP KUMAR DAS (HOD, DEPARTMENT OF**

**COMMUNITY MEDICINE)**

**DR. HUMANI SHARMA  
(ASSISTANT PROFESSOR  
OF COMMUNITY MEDICINE)**

#### **PREPARED BY :**

**GRISHA THAR**

**Roll no : 91**

**4th BHMS (2024 -2026)**

PLACE OF VISIT :-

**MAPS GRANITO Pvt Ltd**  
**Morbi, Gujarat - 363641**

DATE OF VISIT :

**09/04/2024**

OBJECTIVES OF VISIT

- To understand the role of different industries in prevention and control of INDUSTRIAL HAZARDS.
- To understand the ongoing strategies and programmes for prevention and control of INDUSTRIAL HAZARDS.
- To understand the epidemiology of the INDUSTRIAL HAZARDS.

**To understand the impact of hazard ~~created~~ by industries in community.**

## **CLASSIFICATION OF OCCUPATIONAL DISEASES:**

### **1. Diseases due to physical agents**

- (1) Heat : Heat hyperpyrexia, heat exhaustion, heat syncope, heat cramps, burns and local effects such as prickly heat.
- (2) Cold : Trench foot, frost bite, chilblains
- (3) Light : Occupational cataract, miner's nystagmus
- (4) Pressure : Caisson disease, air embolism, blast (explosion)
- (5) Noise : Occupational deafness
- (6) Radiation : Cancer, leukaemia, aplastic anaemia, pancytopenia
- (7) Mechanical : Injuries, accidents factors
- (8) Electricity : Burns.

### **II. Diseases due to chemical agents**

- (1) Gases: CO<sub>2</sub>, CO, HCN, CS<sub>2</sub>, NH<sub>3</sub>, N<sub>2</sub>, H<sub>2</sub>S, HCl,

- (2) Dusts (Pneumoconiosis)

- (i) Inorganic dusts :

- (a) Coal dust: Anthracosis
    - (b) Silica: Silicosis
    - (c) Asbestos: Asbestosis , cancer lung
    - (d) Iron: Siderosis

- (ii) Organic (vegetable) dusts:

- (a) Cane fibre: Bagassosis
    - (b) Cotton dust: Byssinosis
    - (c) Tobacco: Tobacossis
    - (d) Hay or grain dust: Farmers' lung

- (3) Metals and their compounds: Toxic hazards from lead, mercury, cadmium, manganese, beryllium, arsenic, chromium etc.

- (4) Chemicals : Acids, alkalies, pesticides

- (5) Solvents : Carbon bisulphide, benzene, trichloroethylene, chloroform, etc.

### **III. Diseases due to biological agents** Brucellosis, leptospirosis, anthrax, actinomycosis, hydatidosis, tetanus, encephalitis, fungal infections, etc.

### **IV. Occupational cancers** Cancer of skin, lungs, bladder. V.

Occupational dermatosis Dermatitis, eczema.

### **VI. Diseases of psychological origin** Industrial neurosis, hypertension, peptic ulcer, etc.

## WHAT IS SILICOsis?

- The term silicosis is reserved for the lung disorder caused by inhalation of free silica, which is an untreatable progressive disease and is the commonest and most widespread of all occupational diseases.

- Exposure to large amount of free silica can pass unnoticed because, silica is odorless, non-irritant and does not cause any immediate noticeable effect and hence is confused with ordinary dust.
- Pneumoconiosis is resulting from exposure to free silica may be the commonest and most extensively studied occupational disease of the lung and even today, it continues to be among the most serious occupational diseases. The problem of silicosis is confined not only to the developing nations, but is also not uncommon in industrialized nations.
- NIOSH has said, "Silica is not just dust but it is dangerous dust". Silicosis increases the risk of contracting Tuberculosis and possibility of developing lung cancer in the future. Silicosis is strongly associated with scleroderma and rheumatoid arthritis.

## CLINICAL FEATURES OF SILICOSIS

- Chest pain
- Cough, typically dry & persistent & some times severe
- Cyanosis
- Difficulty in breathing
- Fatigue
- Dyspnea
- Cor pulmonale
- Tachypnoea
- Loss of appetite & Weight loss

Gradual dark shallow rifts in nail that may eventually lead to cracks as protein fibers within nail bed are destroyed

Fever

### Chronic /Classical silicosis

Most common

20 or more years of exposure

Presence of silicotic nodules

*Hallmark*

Silicotic nodules develops in the hilar lymph nodes & calcify

Disease progress to fibrosis of the upper lobe

### Accelerated Silicosis

Heavy exposure for 5 to 10 years

Presence of silicotic nodules

@VijayPatho

<http://dx.doi.org/10.1136/bcr-2013-200362>

### Acute Silicosis

heavy exposure over a short period to high levels of silica of small particle size.

silicotic nodules poorly formed or absent

Mimic pulmonary alveolar proteinosis

## MANUFACTURING PROCESS PHASES FOR TILES

1.RAW MATERIAL STORAGE

2.RAW MATERIALS WEIGHTING

3.RAW MATERIAL GRINDING

4.SPRAY DRYING

## 5.SPRAY DRIED POWDER PRESSING

## 6.DESIGN PRINTING

## 7.POLISHING LINE

## 8.SORTING AND PACKING

## Epidemiological studies on silicosis in India

- There are very few epidemiological studies on silicosis in India where the prevalence of silicosis varies from 3.5% in ordnance factory to 54.6% in slate pencil industry.
- The varying prevalence in various sectors is attributed to the silica concentration in the work environment and duration of exposure to Silica.
- It is probably economic compulsions that the workers choose to work in hazardous environments and are subjected to exploitation.
- Considering the huge population employed in mines, surface industries and unorganized sector that are at risk of silica exposure, it can be presumed on the basis of available studies that several hundred thousand workers in India suffer from silicosis.

# **CONTROL AND PREVENTION OF OCCUPATIONAL HAZARDS**

- The various measures for the prevention of occupational diseases may be grouped under 3 headings:
  1. MEDICAL MEASURES
  2. ENGINNERING MEASURES
  3. STATUTAORY OR LEGISLATIVE MEASURES

## **1. MEDICAL MEASURES:**

- Pre Placement Examination
- Periodicals Examination
- Medical And Health Care Services
- Notification
- Supervision Of Working Environment
- Maintenances And Analysis Of Records
- Health Education And Counseling

## **2. ENGINNERING MEASURES:**

- Design Of Building
- Good House-keeping
- General ventilation
- Mechanization
- Substitution
- Dusts
- Enclosure
- Isolation
- Local Exhaust Ventilation
- Protective Devices
- Environmental Monitoring
- Statistical Monitoring
- Research

### 3. STATUTAORY OR LEGISLATIVE MEASURES

- The worker cannot be permitted to endanger his life and limb in an occupation, while the employer makes a fortune. Factory laws, therefore, have been framed in every country to govern the conditions in industry and to safeguard the health and welfare of the worker. The most important factory laws in India today are:

#### 1. The Factories Act, 1948

- The Factories Act, 1948 provides safeguard for workers to protect health, provides for safety at the workplace when dealing with machinery, improves the physical conditions of the workplace, and provides welfare amenities.

#### 2. The Employees' State Insurance Act, 1948

- Its main aim is to provide for compensation to certain employees and their dependents for employment injuries. The ESI Corporation under this Act plays a very important role in this regard. It is responsible for regulating employers' contribution, paying compensation, ensuring compliances, etc.

DEPARTMENT OF COMMUNITY MEDICINE

PERMISSION LETTER

To  
The Managing Director  
Maps Granito Pvt. Ltd.  
Morbi, Gujarat.

Date- 14-03-2024.

Sub: To arrange an academic Visit to tour esteemed Industry.  
Respected sir,

As per the curriculum by the National Commission for homoeopathy (Government of India), it is mandatory to arrange an academic visit for the students of 4<sup>th</sup> BHMS (Session – 2024 – 2026) at any Industry for their academic purposes. So, in this regard Department of Community medicine is seeking your permission to conduct an Academic Visit to Maps Granito Pvt. Ltd. industry at Morbi, Gujarat, at any convenient date to you, preferably in the last week of March 2024. Our students are eagerly waiting to visit your esteemed industry.

Your kind co-operation is highly solicited.

Thanking you,  
Yours faithfully,

Prof (Dr) Anup Kumar Das.
