

NATUROPATHY CENTRE VISIT

As a part of CCIM curriculum, one staff member & 30 students of the institution visited Vinoba Ashram, Nisargopachar centre, Gotri on 24/09/2018.

The consultant Doctor of the centre explained about the different treatment procedures used there. The students visited the opd, ipd sections and treatment rooms of the hospital. Various baths, mud pack, lapet etc were described in detail by the consulting physician. It was a good memorable and knowledge delivering tour for everyone. This will definitely be helpful in improving the academic knowledge of the students.
